My Column

Whyt Whitaker Jr.

We dedicate this issue to A Large Fraud. Read the editorial on page 3 and see for yourself how well A. L. Ford, our misrepresentative in Congress, can keep a promise.

***

If this issue is unusually punk, then blame it on me. Ye Editor and Society Editor have been on the Gulf Coast on a vacation, and a good part of the "dull" was written by me. So excuse the punctuation, phraseology, spelling, capitalization, etc. We assure you a good paper next week.

***

See where the entire 45,000 WPA employees in Mississippi signed the pledge of loyalty to the United States, and not a single one is a communist, or a German-American Bundist, or a believer in some other unorthodox ism. We Mississippians are one hundred per cent redblooded Americans—something that can't be said about some of the other states in the union. Illiteracy is found all over the Magnolia State, but even the most ignorant have more sense than to become anything besides believers of the democratic form of government.

***

Bilbo's old campaign ruse, a challenge to a series of joint debates, was quieted by former governor, and next junior senator, Hugh White, when he told him to run his campaign as he pleased, and he would do likewise.

***

The cheese and crackers might be ok for Bilbo, but we fear that Radio Wells will become constipated on such a solid diet. Bilbo dances cheek to cheek with those Washington wimmin an thereby gets plenty of exercise and his system can stand such food.

***

The vote will be about one-half that cast last summer in the democratic primary. At that time about 2400 votes were cast in Grenada County. Today there are only about 1500 qualified voters. Out of this number, approximately 1200 are expected to go to the polls and vote.

***

The Grenada County American Legion Post has passed a resolution favoring the conscription bill. They also intend to silence those who are fighting the Compulsary Military Training Bill. Just watch a change in the attitude of a certain editor and his republican newspaper.

***

A certain editor (you know to whom we refer) has been doing all in his power to create hate for the Roosevelt administration, and has been boosting Willkie to the limit. That editor recently came out with an article stating that a voter could not lose anything by voting the Republican ticket. He went on to say that since a democratic deserter is only barred 2 years for quitting the party that he, in this case, would not lose anything by doing so. This article stated that the senatorial and congressional race in Mississippi would be over, and it would be three years before we have another primary election of any importance. This is all true, you won't lose much in a voting sense. However, you will lose your honor and self-respect. If this does not mean anything to you, then vote the Republican ticket. Fortunately, we will have so damn few quitters in this section of the country that it won't make any difference. Voting for Willkie in Mississippi and expecting it to do some good would be like a little boy going down to the Yalobusha River and "doing something" and expecting it to cause a flood in Greenwood.

***

Here Bilbo almost flatters my man Hugh. It is a good recommendation and we will publish it. "I am for Hugh White one thousand percent because he is . . . honest, honorable, clean, dependable, and because his platform, which he will live up to and put in effect, will give everybody a square deal."Theodore G. Bilbo, in a letter to his campaign manager, July, 1935.

***

Everybody finds the heat a none-too refreshing subject of conversation, but so far nothing has been done to counteract its effects. Finding it utterly useless to complain and only a painful duty to talk about the hot weather I am inclined to agree with the man who said if it were any hotter in Hades than it was here, he intended making other arrangements. Martha Rhyne

The stork is ahead of the wolf. The stork has been busy in Grenada County, while the man with the cycle has been resting. About 300 births have been recorded since the first of January—approximately three-fifths of those born were negroes and the rest white. There were about 140 deaths recorded in the same length of time. Births lead deaths by 160 notches.

***

Since the first of the year, 158 marriage licenses have been issued by Circuit Clerk Charlie Worsham. Negroes are doing most of the marrying. 106 licenses were issued to them, while only 52 white men bought them.

Grenada Wins Yazoo Inter-Club Golf Tournament

Again Grenada brings home the bacon by winning the golf tournament. Grenada, Yazoo City, Lexington and Canton compose the league.

Four matches were played, one at each town in the association. The total score finds Grenada men leading by 37 points. The final score is: Grenada 245, Yazoo City 209, Canton 198, and Lexington 142.

The ladies total is: Yazoo City 124, Grenada 102, Canton 48, and Lexington 16.

On the ladies side of the fence, Mrs. Parker, of Yazoo City, holds the distinction of being the best shot among the fair sex, while Mrs. Cooper, of this city, was second.

You will probably note that Grenada finished the third match with a 64 point lead, and ended up with only a 37 point margin. Some of the best players just could not shoot golf while around all of that oil in Yazoo City, or could it have been something not quite as thick as oil?

Crops Off 50 Pct In County; Too Much Cotton Acreage

According to information obtained at the county agent's office, crops in Grenada County are off 50 per cent. Cotton is the worst hit crop, while hay is about 75 percent normal.

The areas worst hit are those along the Yalobusha River. Land along creek bottoms are also damaged very badly.

The field workers under County Agent Cooley are about two-thirds through measuring cotton. Out of 400 farms measured, an average of 35 per cent too much cotton has been planted. The allotment given the farmers is very small—about one-half as much as was planted before this program began operation.

GUY CLANTON LEAVES FOR BARKSDALE FIELD

Guy Clanton left for Barksdale Field Monday of this week, where he will try to pass the entrance examinations to study to become one of Uncle Sam's pilots. Jones Allison, so we understand, failed to qualify for some technical reason.

Aint they sweet.

Football Practice to Begin Monday; Schedule Given

Football practice for the local High School team will begin at 3:30 p. m. Monday, August 19th. Equipment will be issued at 10 a. m. August 16th and 17th. All players who intend to play football this season are requested to report for practice at once if they can do so. Grenada High faces the hardest schedule in its history, and opens the season with one of the best teams in the Little Ten Conference.

Grenada suffered the loss of some star players last year and these men will be hard to replace. Last year for the first time in many years, Coach Hathorn had a number of reserves that he could rely on. This year he will have a good starting team, but the reserves won't be so hot.

The Grenada fans have demanded a better schedule than last years, and it has been given them. So, if the Grenada boys lose a few games, don't growl about it.

The schedule is as follows:

September 20	Pontotoc, here
September 27	Sardis there
October 4	Water Valley, here
October 11	Indianola, here
October 18	Winona, there
October 25	Oakland (undecided)
November 1	Batesville, there
November 8	Kosciusko, there
November 15	Eupora, here
November 22	Charleston here

Taylor Family Reunion Held Sunday At Mt. Pisgah

Mrs. M. S. Walker

The annual Taylor Reunion held at Mt. Pisgah Sunday was a most enjoyable get-together meeting of kin from far and near. They meet to know each other better and honor the memories of the loved ones sleeping in the nearby beautiful peaceful resting place.

It was in 1836, 104 years ago, that Mr. John Prevat Taylor came from Alabama and settled right near where this church was soon afterwards built for their worship.

The inclement weather kept a number from attending, but there was near four hundred present.

The youngest member of the family present was Howard Nelson Mitchell, a beautiful baby boy. Sharing honors was another baby, a girl, Marylin Mitchell, eight weeks old daughter of Mr. and Mrs. Travis Mitchell. Elizabeth Ann Mitchell, a cute two-year-old with such pretty red hair, but there were a number of cute children, handsome boys and pretty girls, all having such a good time, some seeing each other for the first time. The oldest members of the family present, so Mr. O. P. Taylor informed us, (and they can whip him) were Mr. and Mrs. T. N. Taylor.

We had five cordial invitations to this family reunion of the Taylor clan and we thumbed a ride with our friends, Mr. and Mrs. Cliff Tyler of Glendora, as they came through Duck Hill. Many were there from other states and from all over this state. Our old sweetheart Ben Neal from Crenshaw was there (left his wife at home and we had a good chance to talk to him), and his fine looking son, Mr. Lyndall Neal and his daughter, Mrs. Fred Barham.

A long table had been built and at the dinner hour such a dinner was spread, a feast fit for the gods. Rev. Clay Miles of Kilmichael gave the invocation. Then paper plates loaded with everything good that the culinary artist knows how to fix. A roaster of kid (goat meat) on Mrs. E. R. Campbell's table kept Jim Taylor Campbell busy serving for everyone wanted a serving of that delicious dish. (Mrs. N. B. Jacks should have been there.)

Anyway it was an enjoyable occasion and we hope they will have many more happy reunions.

Attractive little Gene and Fanny Virginia Ethridge, of Charleston, are visiting their aunt, Mrs. Ernest Staten while their parents are on the Mississippi Coast at Biloxi.

Hurrah for Rayburn.

CITY SCHOOLS BEGIN ON SEPTEMBER 5TH

Registration Begins Monday Morning, August 26th

Grenada City Schools are scheduled to open on Thursday, September 5.

Preliminaries, such as classification of pupils, registration, distribution of textbook lists, and the like, will be disposed of prior to the opening day. Regular classwork will begin on scheduled time of the first day. All lesson asignments will be made before noon of the first day, and pupils will not be required to return for the afternoon.

High School pupils are requested not to purchase second-hand books until the books are approved by the superintendent or principal.

Free Textbooks—As is generally known, free textbooks will be provided for all pupils in the first 8 grades. These free textbooks will probably not be on hand when school opens, so parents are requested to have children bring textbooks as of last year. These old textbooks will be used until the free textbooks from the state arrive.

Old Textbooks—Since the old textbooks will be of no use to pupils after they are provided with the free textbooks, the school requests and will appreciate contribution to the school of old textbooks in good condition. These can be very profitably used as supplementary books. The school can not buy them.

The minimum school age is six years. Where children become six years of age before the first of November, we have permitted them to enter, but November 1st is our definite limit. No free textbooks will be furnished any child who is not six years of age. This is the law.

Pupils to Report—Pupils in the elementary grades will report for classification on days as follows:

Monday, August 26, City Children; Tuesday, August 27, Tie Plant, Elliott and Brooks; Wednesday, August 28, Fair Grounds, Wolfe-Hardy, Valley Hill and Emon.

High School pupils will report as follows:

Monday morning, September 2—9th Grade; Monday afternoon, September 2—10th Grade; Tuesday morning, 3—11th Grade; Tuesday morning, September 4—12th Grade.

Bilbo Speaks Here On The Square Friday Afternoon

United States Senator Theo G. Bilbo will bring his swift-paced campaign for re-election in Mississippi's August 27th primary to Grenada on Friday, 16th at 1:30 p.m. with a speech on the public square.

Senator Bilbo, who returned from Washington where he had been attending to his senatorial duties, personally opened his campaign later in the season with a speaking tour which started on August 12th.

With Bilbo's appearance on the scene, the current senatorial campaign, which bid fair to be the quietest in recent Mississippi history, cast off its legarthy and began to hum.

CALHOUN CITY LEGIONAIRES HOSTS TO GRENADA POST

The Calhoun City Legionnaires and the Grenada Legionaires made a bet on which post would have the best attendance record. The losers were to entertain the winners. Grenada won and was given a delightful supper Friday night of last week.

This post was supposed to have installed new officers last Friday night, according to Commander J. M. Talbert. This was postponed until Tuesday night of this week.

Free School Books Make Appearance This Year

General opening day for Grenada County schools for the 1940-41 term has been set for September 6, class begins on the 9 County Superintendent of Education, Sam Simmons, Jr. said this week.

Free school books, the one thing which will make this next term different from any in the past, and of interest and importance to every family in the town and country.

Mr. Simmons has been attending district conferences where he has acquainted himself with the rules and regulations for the distribution, and care for books.

There is to be a called meeting of all white teachers and teachers of the county and the distributions of the free books being proposed among them. Additional report on the date of this meeting will appear in this paper later.

The teachers must furnish pass on to the children and their parents the rules and regulations regarding these free books. In reality these books are not "free" they are merely loaned to the children for the school term. And are the property of the Mississippi Text Book Commission.

Books must be returned in reasonably good condition. If the books are badly damaged, the parents will have to pay for the damage. If the books are lost they will have to be paid for. If the parents refuse to pay for damage done, or if a book is lost, the pupil is not given a promotion slip to the grade next above, and will not be allowed to use the furnished books at the beginning of the next term. When the books are given out they are registered with the serial number given to the grade teacher of which is filled out by the teacher and the parents must sign that they are responsible for the books before a child is allowed them.

If you wish to purchase books out right for your children, you may do so from Mr. Simmons. The price of the books will not exceed the wholesale price plus reasonable transportation charges.

Distribution and handling of school books is going to add much to the labors of school officials throughout but the system is detailed and should work fairly smoothly, according to Mr. Simmons.

PROVIDENCE NEWS

REVIVAL CLOSED

The revival meeting at Providence Closed last Friday night. Rev. Bryan Abel of Meridian did the preaching, and did it well. The choir was led by our own Jimmie Neal. The people responded well to his leadership.

CLARK-MCVEY

Mr. Tom Clark, of the Red Hill community, and Miss Duina McVey of Duck Hill were married at the home of Mr. Bunk Gray Thursday afternoon at 2:30. Rev. Bryan Abel performed the ceremony. We wish for them much happiness.

The showers of the last few days are helpful to crops. While crops will not be up to normal, they have made much improvement since the continued rains ceased.

Mrs. Jack White and little daughter "Jackie" are visiting her parents, Mr. and Mrs. John Williams. Mr. White is in the U. S. Army and has recently been transferred from Georgia to Lafayette, La.

Mrs. Bryan Abel and little daughter Peggie came with Rev. Abel and spent the week-end with Mr. and Mrs. Pass Abel.

Mrs. Louie Harrison and son Junior of Charleston, spent Friday night in the home of her parents, Mr. and Mrs. Pass Abel. They accompanied the Rev. Abel and wife to Meridian to spend a few days.

Mrs. Bill Harpole of Durant and her mother, Mrs. J. E. Carpenter, of Grenada, attended services at Providence during the meeting. Mr. Harpole is one of the recent additions to the State Highway Patrol. He is stationed at Durant for the present.

Mr. Joe Houghlin, our champion melon raiser, sold $1000 worth of cantaloupes this season and some watermelons for $500 each. That knocks the press out of depression and what's left doesn't stuff anything, do-ion. Now if someone can raise something to knock the scent out of a skunk the preacher can associate again with decent (?) people. But until—well, it may be a long time.

So long.

BULLET ON COTTON

Without the pressure of the cotton system, the United States would have been a half century later reaching the Rio Grande. Cotton culture has built a civilized society from the forests and plains of a third of the nation's area.

Cotton is the great industrializer and trade builder. To spin cotton, England produced the first steam-driven machines, initiating the industrial revolution which has remade the world.

Here, in the cotton belt, businessmen build their own industrial and commercial structures on the base of the cotton dollar. Just as cotton lifted the ante-bellum planter from frontier subsistence status, so today cotton means cash purchasing power to farmers in eighteen states.

Cotton's power to build a civilized society is truly kingly, truly imperial. Yet it is power that depends on you and us as customers. It stands on our individual purchases of cotton and its by-products.

—National Cotton Council

Mr. W. P. "Bake" Hamsley left last week for Veteran's Hospital in Memphis. His condition is not serious and he will probably return in a few weeks.

Mr. Ralph Chapuis is spending two weeks in Washington on his vacation.

Miss Pauline Richardson spent Monday in Memphis.

New Foods

(Continued from last week)

Pre-salted celery may be the next vegetable novelty. One of Uncle Sam's county agents hit on it by accident. He found some celery growing in North Carolina on land covered at times by ocean tides, and upon tasting it concluded that it had just enough salt. At his suggestion, the farmers of the district are trying to grow it for the market. 2000 plants have been set out this year. The results should prove interesting.

Vanilla flavoring and baker's yeast are the new by-products of paper making. A Canadian mill is extracting them from its pulp waste, and making a nice profit in the process.

Bananas recently appeared in the Moscow markets in Russia for the first time since the World War. They brought $1.50 per pound, yet so rare were they that even at this price people stood in line to buy them.

Curing cheese in a coal mine is actually being done by a Pennsylvania dairy engaged in commercial production of blue vein cheese—one of the first such efforts in this country. The reason behind this lies in the fact that blue vein cheese requires certain exacting curing room conditions and the cool and constant temperature, high humidity and absence of air currents of certain coal mines combine to make them ideal for conversion into curing rooms for this kind of cheese.

(The above information was compiled by Mr. and Mrs. Al Gully, owners of Jitney Jungle, and is certainly interesting to all homemakers.)

ICRR Offers Cheaper Transportation

A large number of reductions in less than carload and any quantity ratings applying on commodities shipped to and from this territory have been published by the Illinois Central System to become effective September 1, 1940, said Mr. J. R. McLeod, Assistant Traffic Manager at Memphis.

Reductions are of a very substantial nature and will result in cheaper transportation and a considerable savings in accumulating and distributing costs to shippers and receivers in this territory.

Reductions involve 3519 different commodities of which 2424 will be reduced one class or less; 986 more than one class, but not more than two classes, and 119 more than two classes.

Less than carload ratings were in many instances reduced to be the same as carload ratings, and 220 reductions were made in carload ratings.

Packing requirements are simplified by the application of the same rating, usually the lowest on articles, regardless of how they are packed so long as the container is acceptable to rail transportation.

Rule 34 of the Classification has also been revised on basis of 3 groups which materially simplify the use of box cars of unusual sizes and dimensions. The first group include cars up to 40 feet, 7 inches; the second group over 40 feet, 7 inches to 50 feet, 6 inches; and the third group over 50 feet, 6 inches.

These reductions, which are voluntary on the part of the railroad, have been a source of serious study for some time and are designed to assist in the distribution by rail of commodities and necessities in this territory.

SOUTHERN DAIRIES COOPERATES ON NATIONAL DEFENSE

At a meeting of the directors of Southern Dairies, held at Myrtle Beach S. C. July 25 and 26, approval was given to a plan to provide compensation to members of the organization during periods of military training. A decision was reached to reserve jobs for permanent employees who are conscripted for service. Southern Dairies will also supplement the money paid by the government during the three weeks National Guard training period, so that the employee will receive his average weekly wages. Salaried employees will also be paid on this basis.

Group insurance will be maintained for all employees during their military training service.

Mr. and Mrs. J. C. Calk and son Bobby, Mrs. Odine Willis and children left Saturday for a few days vacation on the Gulf Coast.

"Yes, sir! These exhibition trains are a wonderful help to us farmers. Why, I've learned more about seed corn this afternoon than I have in years. Those pupils of yours, too, Miss Brown—they're sure taking everything in."

"They certainly are, especially the livestock exhibits. Most of the children are 4-H boys and girls, and never miss a chance to learn more about farming.

"Your railroad is doing a splendid work with this train. Is this the first one you've ever had?"

"Oh no! The Illinois Central has operated a lot of trains to help farmers. For instance, we've had the Purebred Sire Special, Dairy and Poultry Special, Agricultural College on Wheels, Livestock Special, Soy Bean Special. Then, too, our men are busy making soil surveys, conducting group studies and advising with individual farmers on better methods, herd improvement, sanitation and other problems.

"For years we have lent farmers purebred dairy sires of the Holstein, Jersey and Guernsey breeds free to improve their herds."

It is good business for the Illinois Central to help improve local farming and industry. As these prosper, so does our railroad.

The Promises and the Record of A. L. Ford

During his campaign for Congress A. L. Ford made many promises to many people. To many classes that controlled large blocks of votes he made special promises in his appeals for their support. In many cases he fooled them into voting for him, but his promises were never kept.

1. PROMISES to EX-SERVICE MEN. Ford appealed to the boys who had served in the World War for their support. He promised them he would loyally stand by them in all legislation that came before Congress. He hired ex-service men to go all over the district and personally contact every soldier every three weeks during the 1934 campaign and tell them, "A. L. Ford is our friend; he will never fail us; we must elect him to Congress." On this appeal and promise he got a large share of the veteran vote.

His RECORD: The first vote he cast in the House after getting to Congress was for a "gag rule" which has made it very difficult since that time to secure legislation for the Ex-Service men. His vote was AGAINST the Veterans.

2. PROMISES to the SCHOOL TEACHERS. During the campaign he promised the school teachers and school bus drivers that he would get great sums of Federal aid money which would double the salaries of the teachers and the pay of the drivers. He hired school teachers to go up and down the District and personaly contact every teacher, bus driver, and trustees of all the schools and tell them, "Ford will get great sums of Federal aid money for the schools which will double the pay of the teachers and bus drivers; we must elect him to Congress." He had thousands of personal letters written by a high school teacher in Winston County to each teacher, bus driver and school trustee telling them of the glorious things Ford would do in getting Federal aid money (the teachers were receiving a large part of their salaries from Federal aid money before Ford got in Congress).

His RECORD: Since Ford went to Congress the teachers, bus drivers and public schools have not received one penny of Federal aid money. Instead of their pay being doubled they are now receiving about ONE HALF of what they were getting when these promises were made.

3. His PROMISE to get OLD AGE PENSIONS. Ford made a great appeal to the old fathers and mothers for their support and votes. He wrote each of them personal letters telling them that he would work for legislation to give each person over 60 years of age a pension on which they could live.

His RECORD: Ford voted AGAINST the only old age pension bill that has come before Congress since he has been there, denying to the needy old peple the help he had promised them during the campaign. However, in justice to Ford, he did vote for a bill to retire some old Army horses on a pension. These horses had become too old for service and he helped to retire them on a pension so they could enjoy the remainder of their lives. He refused to do this for the old people of the 4th District. They must live with relatives in their last days.

4. PROMISES to the FARMERS: When Ford went to Congress cotton was selling for 12 cents a pound. He promised them better prices. He has sent numerous telegrams and copies of letters to the District trying to lead the farmers to believe that he is getting the price of cotton boosted.

His RECORD: The price of cotton has dropped from 12 cents to 7 or 8 cents a pound, and the condition of our farmers has grown rapidly worse.

5. PROMISES to the TAX PAYERS. Ford published, during the campaign, promises that he would work to reduce taxation on the people.

His RECORD: Taxes have almost doubled since he went to Congress. Almost every conceivable tax has been placed on the people and on business, requiring increased bookkeeping, returns and trouble. Ford voted for these.

His PROMISES to assume DRAINAGE andROAD BONDS. Ford promised in his published appeal for votes, if elected he would get the Federal Government to assume the payment of drainage and road bonds. This caught lots of votes, for the people were burdened with taxes to pay these.

His RECORD. Not one of these bonds have been assumed by the Government, and the people are still being taxed to pay them, notwithstanding the fact that many of the roads have been taken over by the State and Federal Government, leaving only the bonds for the tax payers.

7. His PROMISE to hire SECRETARIES from the men and women of 4th District.

A. L. Ford, when he was a candidate, made an appeal with tears in his voice for a chance to hire young men and women from the 4th Congressional District as his secretaries. He promised the people that he would never hire a secretary from any place but the 4th District. He told the people that the District was entitled to this consideration so the young people could secure an education. When he entered Congress the secretary hire was $4500.00. It has been increased during his time to $6,500.00 at the expense of the taxpayers.

His RECORD: In addition to other secretaries who were hired only a part of the time, he has his sister, Mrs. S. Y. Bright on the pay roll for $3,250.00 a year. She lives at Hickory Flat, does not live in the 4th District, is the wife of a rural mail carrier, J. B. Bright, who is drawing now and has been for many years a large salary from the Federal Government. Mrs. Bright does not stay Washington, does not perform services for the people of the 4th District. Just draws the salary. He had E. W. Pinson, sheriff of Choctaw County, on his secretary pay roll at $2,500.00 a year. Pinson has not been in Washington to perform services to the people for which they are paying. He too just drew the salary.

8. His PROMISE to invest his money in the 4th DISTRICT. Ford bemoaned the fact that a Congressman should buy property anywhere but in the 4th District if the people elected him from that District.

His RECORD: A. L. Ford has never owned property in the 4th District with the possible exception of a back street lot in Ackerman, which we understand he has sold or was trying to sell. He has never paid any appreciable tax in his county or the State, and shows by his actions that he has no faith or interest in the 4th District except to get the vote of the people so he can stay in office and continue to draw $10,000.00 a year salary.

He has bought about 1000 acres of land - the finest in the world, in Arkansas on which to grow long long staple cotton in competition with short staple cotton farmers of the 4th Congressional District of Mississippi. He pays some $1,700.00 in taxes to Arkansas on this farm, but that does not help the people of the 4th District of Mississippi. His plantation is protected by a free Government built levy while the farmers of the 4th District have their crops drowned out by over flows from Yalobusha, Big Black and other streams while he does nothing to help them.

We have called your attention in a dispassionate way to the PROMISES and RECORD of A. L. Ford for your deliberate consideration. Is this the kind of a man you want to represent you in Congress? Can you depend on him or what he tells you?

We have one more question: WHAT HAS HE DONE FOR THE 4th DISTRICT?

Free School Books

The 1940-41 school term will begin early in September, about the first of the month. The most notable difference in this term and those that have preceeded it is "free" school books. In reality they are not "free" books, but merely loaned to the children in the public schools and remain public property.

We have always agreed with Governor Johnson on the free school book proposition. We, like he, believe that if the state and county can furnish school houses with all modern equipment, transportation for the children to and from the schoolhouse, build gymnasiums and athletic fields for them, then we should be able to give them the one other thing necessary to obtain an education—that is, books.

It is highly likely that the enrollment will be greater than ever before. Underprivileged children (we have thousands of them) will not be embarassed by not having books. We can remember back in the lower grades the poor child without books. The teacher would raise hell with him for not having his books. This shamed the poor little thing to such an extent that he either quit school or lost all interest in his work.

We have always thought that it was a damn shame that in a great land like ours, that children should be brought up in ignorance for lack of books. The Judge said, "Ignorance and illiteracy are the greatest enemies of mankind."

Whether you approve of Governor Johnson and the present administration or not, you must admit that they have accomplished something great when they enacted the "Free Text Book" law. —WWW Jr.

Drive With Care

September is the month that children throughout the nation start back to school.

When you come to a sign reading "School Zone, Drive With Care", heed this warning. With all the young ones on the streets, it is urgent that motorists drive with extreme caution to avoid accidents. Young, sweet and pure lives are so often snuffed out because of one moment's carelessness.

Wisely, Mr. Rundle has handled the situation over at the grammar school by employing high school boys to usher the little tots on and off the trucks and across the dangerous intersection of Line and Fourth Streets.

Bear in mind that it is strictly against the law to pass a school bus when it has stopped to let off children. Only last year, a little girl was killed near the county line on highway 51 by a reckless driver who did not stop for the school bus. —WWW Jr.

The New Church

Our church was burned down in December,
And the deacons, busily day by day,
With our beloved pastor, have been
Getting a new church under way.

One hundred two years ago it was founded,
By pioneers, good and brave.
'Twas a blessing to all of it's members,
Whose souls they so faithfully save.

They decided to change the location,
And purchased the best lot in town.
Planning that a far better building
Should to future come down.

Mrs. Moore, our fine oldest member,
Grand-daughter of good Pastor Hall,
Was chosen to break the new ground,
And willingly answered the call.

But when she was handed a toy shovel,
She looked at it sore dismayed,
Saying ,"If you want a good beginning,
Please hand me a sure enough spade!"

Not all the old members attended,
But at home, they silently prayed,
That all former friendships and blessings,
Would in this new church be re-made.

Mrs. W. S. Van Osdel

Grover Cunningham who got rolled as game warden by the new administration, visited Grenada Tuesday.

Choose this month who will serve you: Long-staple Ford of Arkansas fame, or Mississippi Short-staple Rayburn, native Mississippian, graduate of Ole Mess, and lives to the interest of the 4th Congressional District.

The old lady and I spent a long week-end at Biloxi last and this week. We have made a resolve however, to stay at home until Christmas.

While on the Coast, Tom Bailey and Mrs. Bailey took the old lady and Dorothy for a long automobile ride, proselyting.

We note where Ned Lee gave a long and interesting account of his trip to Washington in the interest of the flood-ridden people of his section. Not one word was mentioned about Ford helping him. Of course Ford could not help when Ford was on a free junket on the palatial steamer "America".

Poor Mississippi!

Welcome! to The City Beautiful

Just a few words at random please, today, August 12, the writer's birthday, who in his lifetime of over three score and some has never met but two people with same birthday. They were twins (and highly colored) so please any or everyone who has Aug. 12th for a birthday drop us a card, addressed Box 32-A R. D. Big Creek, Miss. Give your name and address, same will be answered and as we grow older we think the world is growing worse. Temporal things are stressed more than spiritual not with standing many churches, but entirely too much money changing. Even cash values set on the word of God. We need not be surprised to see our liberty lost and or a great famine. It's not too late yet to set our house in order. "Oh watchman, what of the night."

CASCILLA NEWS

We are sorry to know of Mrs. W. E. Allbritton being in the hospital and undergoing an operation and wish for her a speedy recovery.

A shower was given Miss Dora Payne at the lovely home of Mrs. and Mrs. J. W. Whitten, Jr., on Aug. 1st, where a number of guests assembled and bestowed their beautiful and useful gifts to the bride. A number of visitors as well as Cascillians attended.

MY MOTHER'S BIRTHDAY

Four score years! How few can wear
On their brows a crown more rare!
Unto thee, dear Mother mine,
Renders Heaven this gift divine;
Sing ye angels hovring near;
Chant an anthem for each year.
Oh thou sun, now bending low,
Radiant let thy glories glow.
Earthly clouds come not between,
Yield thee to this sun-set scene.
Eve of life, too soon must close,
And give place to night's repose;
Rest, being thus untroubled dreams,
Sleep, awaits to heavenly scenes.

Note: Forty-one years ago, the above poem was written by Mrs. W. S. Van Osdel, in honor of her mother's eighth-a birthday. Today her daughter publishes it in honor of her own eighth-a birthday, which was August 15, 1940.

Seen, Heard and Told

By The Editor

Whyte, Jr., started off the paper this week while the old lady and I were on the Coast, and we let him almost finish it, and he made a good job of it.

Brother HuNby and I went out Wednesday to see our good friend, John James who has been ill four weeks. He is better, and is receiving much attention from the ladies, and that suits that old rascal mighty well.

Out there we learned that some gals pushed Sam Gillar into the creek recently, with wet results to Sam.

It looks like Ford is going to have a tough day on the 27th in Beat Two.

Our good friend, Judge J. G. McGowan, distinguished member of the state supreme court, and candidate for reelection, honored this office with a call Wednesday.

"Nothing But Colored Folks Allowed On This Farm."

As we go to press, My Man Hugh is giving Bilbo hell in and on the square, by the time you get this paper, Bilbo will be giving My Man Hugh hell at and in and on the same place.

It looks like the Street Committee got some of the ame medicine the Water Committee got. He humbly suggest that committees be done away with, if they can not be backed up in things they do, with full authority and in good faith.

Is it a fact that Hurd Horton is Bilbo's campaign manager here?

This office was honored by a visit Wednesday night from Eugene Gee of Holcomb.

It is a good thing for the delinquent water consumers, who can pay as well as you and I, that the former Water Committee was liquidated for the former committeee thought that all should be treated alike by the city and that the "pay or cut off" ordinance meant something. That, however, is not my baby any more, and please do not bother me with it.

Hugh's two colonels should have been dressed in uniform, but were not.

The American Legion in Grenada is getting hot under the collar about un-Democratic activitiees and propaganda here in Grenada. These boys by and large believe in Roosevelt, believe in the Democratic Party, and are ready to abandon the third term fetish during the great emergency that this nation and the entire world face. They resent stray hogs trying to root out hallowed traditions of Democracy.

Me and Mike are sommolent, hibernating, taking a walk, resting, or something like that, but we will be back in the ring at the proper time.

When Rayburn enters Congress next January, we pledge that he will work for drainage for the 4th Congressional District, and not worry with Arkansas drainage matters.

The old lady and I caught a water bucket filled and running over with white and speckled trout Saturday morning. We gave away eight messes of fish to neighbors on the Coast.

Tommie Rose and his better seven-eights took another trip to Memphis one night last week, getting to be regular gad-abouts. It has not been six months since they were off another day.

So many have paid up recently that we can hardly get to them.

Aint they sweet.

Ford's record is filled with goose eggs: Goose eggs for his help to farmers; goose eggs for his record for soldiers; goose eggs for his record for flood control; goose eggs for everything.

Miss Jesse Van Osdel and niece, Julia Marie Guidry are enjoying a visit on the Mississippi Coastat Biloxi this week.

Mrs. C. M. Durham, of Itta Bena, was the guest of her son and daughter, Mr. and Mrs. D. M. Durham, Jr., at their apartment home in the P. M. Taylor home, this week.

Mr. and Mrs. C. C. Milam, of Memphis, visited in the hospitable country home of Mr. and Mrs. E. L. Boteler last week, returning to their home on Sunday.

Mrs. R. A. Clanton, Mrs. "Buster" Clanton, Mr. and Mrs. Harry Burkley and little daughter spent last week on the Mississippi Coast at Biloxi, returning home Monday night.

Misses Edith Penn and Mary Douglass Honeycutt, Mrs. Jimmie Todd and Mrs. Pat Mullin enjoyed a vacation on the Mississippi Coast at Biloxi last week.

Emmogene Geeslin is visiting Misses Ann Wagner and Evelyn King in Water Valley.

Miss Mary Nell Rayburn returned Saturday from Greenwood, where she visited her cousin, Emma Elizabeth Hale.

Legion Resolution Favors National Conscription

The American Legion passed the following "hot" resolution directed at those who seek to impede the preparedness program of the president:

"Whereas: the American Legion having at all times felt its responsibility for the support of our Government and its leaders, the Constitution and the Monroe Doctrine, and to defend the same at all times,

"Whereas: In this time of world crisis, when not only other great democracies, but our own, is being threatened and the need of a great and strong defense is becoming more imminent daily, and

"Whereas: The harnessing of the manpower of this nation has been conceived by military experts as one of the most effective means of bringing our preparedness program to its highest peak of efficiency;

"Therefore, be it resolved that The American Legion Post of Grenada County go on record as endorsing the Burke-Wardsworth Conscription Bill.

"Therefore, be it resolved furthermore that we inform our Senators and Congressmen of the stand we are now taking, and solicit their wholehearted support toward the enactment of the Burke-Wardsworth bill.

"Therefore, be it resolved that a copy of these resolutions be forwarded to our representatives in Congress and to our two local newspapers and that one copy be spread on the minutes of our local ost.

CHAMBERLAINS ARE HOSTS

The lovely country home of Mr. and Mrs. G. E. Chamberlain was the scene of a happy gathering on Sunday, August 4th. The occasion was in honor of the birthdays of Mr. and Mrs. G. E. Chamberlain; a grandaughter, Martha Grace Chamberlain; and Mr. Chamberlain's sisters, Mrs. J. W. Leverette and Mrs. Mollie Trussell, which are all in August.

After the guests arrived and the many nice presents were opened and admired, they were invited to the dining room which was decorated with many vases of bright garden flowers. The long dining table was lovely indeed with low bowls of goldenglow at each end and a huge birthday cake for a centerpiece.

A most bountiful dinner was served and was enjoyed by all present.

Those sharing the day's pleasure with the host and hostess were:

Mr. and Mrs. Lamar Chamberlain of Grenada; Mr. and Mrs. Edwin Chamberlain of Greenwood; Mr. and Mrs. Roy Chamberlain and children, Martha Grace, Thomas and James Ray; Messrs. A. D. and Everette Chamberlain of Grenada;

Mrs. Mollie Trussell and Mrs. J. M. Cooley of Grenada; Mrs. J. A. James, Mr. Curtis James, Ruby and Laura Jean James, Miss Alma James, all of Cadaretta, Miss.; Mrs. J. W. Leverette, Carl Leverette; Mr. and Mrs. Lester Leverette, Ruth, Earline, Barbara Ann Leverette, all of Senatobia, Miss.; Mrs. Edwin Prinz, Mr. and Mrs. J. C. Tharpe Mr. and Mrs. Reginald Tharpe, Miss Marjorie Trussell, all of Gore Springs.

As the guests bid the host and hostess goodbye, they wished them many more happy birthdays in the future.

MRS. EMBRY AT CHICAGO

Mrs. Pete Embry, owner of the Quality Shop, has been in Chicago for the past week where she has been doing her wholesale shopping for fall clothing.

She, like other wide-awake merchants of Grenada, will bring the latest styles to the Grenada buying public. You don't have to go to Greenwood, or some other town to get what you want. The merchants in Grenada have it. Shop at home this Fall. A dollar spent in Grenada stays here—one that is spent elsewhere never returns.

DICK RULE INVITED TO ADDRESS GREENVILLE LEGION POST

The following letter, which is self explanatory, was received by Commander Talbert of the Grenada American Legion from the Legion Commander at Greenville:

"While in Jackson at the Department Convention, I had the pleasure of listening to the address made by the winner of the oratorical contest, Dick Rule, of your city.

"We would like to invite the young man to come to Greenville and deliver the same address here, so am writing you to make this request of you, to see the young man and arrange his visit here for us.

"Not only on account of the ability of this young man and the splendid address, but we have another great reason for it. It seems some time ago a young man, graduate of Oxford in England, Rhodes Scholarship, and who is now a college professor, was visiting his parents here, and addressed a men's Bible class. His address was very un-American, almost subversive, and it started up a hornet's nest of local talk, etc. He being a pacifist and worse, set a very bad example to the youth of this section. So, to answer this youth in a way we think it wise to hold a public meeting with a youth of patriotic ideals, make an address and have selected Dick Rule because of his ability. You will certainly do us a great favor if you can arrange his trip here, and help us greatly in our Americanism work.

"We have not set a date, writing you first as almost any date suitable to Dick will be all right, only allow enough time for us to give publicity. We would like to plan and arrange this and secure a large attendance. At this public meeting we would have the school band, the principal address and some other talks by youths, all on the Americanism thought. Please do us the favor and we will greatly appreciate it.

JOE ROBB, Commander,
Greenville American Legion"

In the absence of Dick Rule, who is in Los Angeles, William Winter, valedictorian of class of '40, was contacted by Mr. Talbert, local American Legion Commander, and when requested to fill this speaking date, graciously accepted, and will deliver the address on Americanism at Greenville. William is the son of Senator and Mrs. W. A. Winter.

A POSTOFFICE

Pa Whitaker got a sho-nouf grievance now!
I wonder does the folks all know
What give Pa Whitaker
Seeh a darn sore toe?

Way back in thirty-eight
Whitaker tuk the CIVIL SERVICE ZAM,
And he come out HIGH
With a reg'lar grand slam!

Now A. L. Ford got awful bored;
He says, "I will be damned
Before I give this BOLSHEVIK
His well-earned slice of ham."

And time went on, and time went on,
While A. L. Ford grew still more bored.
He pinched Pat Harrison in the pants,
And says, "Give Grenada folks another chance;
That civil service 'zam was held by hants."

Says Pat, "Now Ford,
You've got to do the dirt,
'Cause you stirred up
This gol-darned spurt!"

Says Ford, "'Twould do me hurt,
To put a blot on my chaste skirt."
And princely Pat pursuing peace,
Penned out a new exam
To purchase Ford's release.

Announcement has been made that Hon. Earl Wingo, a very forceful speaker, will speak at Fowler's Store next Wednesday, August 21, at 10 a.m.

The public is cordially invited to hear this man speak in the interest of Senator T. G. Bilbo, candidate for reelection to the U. S. Senate.

A TRIBUTE TO THE WPA GARDENING AND CANNING PROJECT IN GRENADA COUNTY

Due to a deep interest in the welfare and well being of school children in general, the undersigned feels compelled to write a few words in praise of the School-Lunch, Gardening and Canning Project's work in Grenada County.

Have secured information and satisistics on the accomplishment of the three canning centers from Mrs. Lila Elam, County Foreman of this work. Her faithfulness and efficiency, and also that of her workers, have been unsparing to make it possible to give the undernourished and under-privileged children in this county now, well balanced nourishing meals during the school months. Fall gardens have been planted and there will be an abundance of fresh vegetables to draw from until late in the year.

Below are a few figures, taken from Mrs. Elam's monthly reports for June and July.

From seven gardens in Grenada County, covering seven acres in all, furnished by prominent, public-spirited people there have been 4,240 pounds of fresh vegetables harvested and canned in the three canning centers and close to 1,000 pounds of surplus turned over to the Surplus Commodity Corporation's warehouse in Grenada for distribution to the needy.

It seems a pity to the writer that we have only three branches of this work in the county, as the result of the WPA school-lunch, by my personal observation, is not only physical but mental development of school children fed in this way. It affords such a wonderful opportunity for more of our fine public-spirited people to aid and work for additional units, that more children can receive the benefit of this great phase of the WPA program.

MRS. STARK WILLIS

Mr. and Mrs. Terrell Barksdale and two children, Ethel and Ruth, of Sheffield, Ala., have returned to their home after visiting their relatives, Mr. and Mrs. R. B. Thomason.

Miss Rebecca Gaston, of Calhoun City, is visiting Miss Dorothy Talbert this week.

Apparently, Hitler's blitzkreig has turned into a miskreig.
